

Firm Profile

MWM Architects, Inc., head-quartered in Oakland, is a California Corporation providing consulting services in the fields of architecture, building analysis, and planning.

Sutton Place
Chicago, Illinois

Founded in 1959, MWM Architects, Inc. has developed an enviable record of stability, professional performance, design recognition, and client satisfaction. Our completed projects throughout the United States and the Pacific Basin now number more than one thousand. They stand as evidence of our talent in working creatively and productively with our clients. MWM is widely recognized for its ability to solve complex problems for our clients in both the public and private sectors. Our reputation is based on the successful completion of an impressive variety of building types which include hotels/resorts, multi-family residences, civic centers, public safety buildings, commercial/office, military, governmental, and recreation commissions and on our special skills and understanding of snow country and tropical environment design.

Thang Loi Hotel
Hanoi, Vietnam

Our commitment is to our clients, whose satisfaction insures our continuity and growth

- to project budgets, which bring realism and practicality to our decisions
- to schedules, because time management is a prime currency of good business
- to codes and authorities, because our obligations are to the public as well as to our clients
- to design excellence, both functional and aesthetic
- to building technology, because our buildings must perform and endure.

To honor these commitments, we incorporate sophisticated planning and information systems into our management procedures, update our communications systems, and provide state-of-the-art computer design, drafting and production processes. The objective we achieve is the creation and maintenance of an environment of financial stability, professional discipline and creative enthusiasm.
